- **Additional Information from Paul Aguilar in gathering information:**

What we need is the amount of money received by the RECs from PED to provide training specifically (e.g. Principals Pursuing Excellence). I recognize that these trainings include organization, management, stipends, food and lodging but I don't want to go that granular. Just the name of the program and the amount received by the REC to provide the training. Other training that the RECs provide that is not directly related to the PED should not be included. Furthermore, federal funds received from PED for training should not be included only state funds.

Paul would like this information by **Monday, October 3**. Please submit to me by close of business on **Friday, October 1**.
